

# RUPAUL QUEEN OF DIAMONDS

CHROMAG SUPER D-RAG DOUBLE SHOT  
SATURDAY, JULY 10TH MORNING START 10AM AFTERNOON START 2PM

We know it's a bit of a drag but we're back in the dreaded No Flow Zone for the first half of the Chromag Double Shot. Shorter than last year with more emphasis on the technical features should separate the drag queens from the real McCoys. And perhaps finally answer the question, what does Matt Ryan have hiding under that spandex (and we're not talking about Tony Routley's shammy)? After the quick jaunt through Emerald we are headed north for the PHD Super D. This will literally be a drag race starting at the upper exit and combining two quick road climbs with some super cherry descending. But beware: PHD will test your tire choice to the max if you go light. And getting a flat is a real drag. The results will be combined into one for the overall however this is a special stage so we will also be crowning the Chromag Drag Queens at the finish.
