## TECHNICAL

Technical trails are designed to embrace the rugged shape and terrain of the mountain, utilizing a majority of natural terrain. Routes are typically hand-built and feature organic obstacles and stunts such as rocks, roots, logs, drops, jumps and other natural or constructed features that require technical riding skills. Technical trails are identified by their difficulty symbol. Jumping skills may be required.

Some of the signage you might encounter:

1 inch = 110 metres

WHISTLER VILLAGE
